

November 16, 2020

Dear NCA family,

One of our staff members has tested positive for covid. The students in direct contact with that teacher will be quarantined (a separate letter has been sent to them). All other students are considered indirect contacts which means they will not need to do anything differently in their daily routines. Please continue to monitor for any signs of illness.

However, five other teachers will need to be quarantined as they were in direct contact with this particular teacher. Currently we have two teachers in quarantine. The school will not be able to staff that many teaching positions. Therefore, **the school will be shut down starting tomorrow** until after Thanksgiving break. Students will return to school on Dec. 1.

All learning will be **remote beginning tomorrow, November 17**. Teachers are prepared with assignments on Jupiter, in packets, and/or other a combination of the two. Remote learning will be for 6.5 school days.

Thank you for your prayers.

Kjell
